- Active Directory & Microsoft Entra ID
- Responsive Web Design
- Shopify & WooCommerce

LANGUAGES

- English — Professional Proficiency
- Tagalog — Native
- French — Beginner (Actively Learning)

EXPERIENCE

IT End User Computing and Helpdesk Co-op

January 2026 - August 2026 | Mohawk College

I provided Tier 1 IT support to students, faculty, and staff through walk-up, on-site, and ticketing systems. I maintained and supported classroom audio-visual systems, video walls, and digital signage, and I re-imaged and configured Windows devices with approved software for campus use. I managed IT equipment inventory, including laptops, projectors, and AV equipment, using asset tracking procedures. I also supported service requests such as guest Wi-Fi access, printing and scanning issues, and eLearn/MyCanvas troubleshooting, and assisted with event and classroom technology setup, including equipment deployment and room support.

WEB DEVELOPER

December 2025 - June 2026 | Burlington Bone Health Clinic

I created the clinic's brand kit, including its color palette, logo, and business card. I also designed and built the clinic's website using Squarespace, with search engine optimization (SEO) and a mobile-friendly design that is easy for older audiences to use. This was a part-time, temporary position, working in a hybrid/remote setup.

Graphic Designer / Web Designer

September 2023 - Sept 2026 | Growstage

I created captivating visual content for digital and print advertisements, making sure it aligned with brand guidelines and marketing goals. I also designed an e-learning website on LearnWorlds for Hochberg Institute (hochberginstitute.de), including its brand kit and logo. I collaborated with cross-functional teams, worked on multiple projects, and used design software to produce high-quality work.

Web Developer (Shopify and WordPress)

September 2022 - August 2024 | Organyzed Media

As a web developer and graphic designer, I worked on Shopify platform development, website traffic optimization, and WordPress customization, delivering engaging and efficient websites.

Web Designer / Funnel Builder

April 2022 - June 2023 | Mach10 Agency

I was responsible for creating website designs, mockups, social media posters and banners, and email marketing. I also built websites and sales funnels in ClickFunnels. I am knowledgeable in ClickUp, Slack, WordPress, Elementor, Adobe Creative tools, and Microsoft Office.

Sales Support Specialist / Marketing Designer

September 2021 - September 2025 | Sir Lancelot Unit, Sun Life Financial PH

As a Sales Support Specialist, I tracked sales leads, coordinated quotes with sales packs, monitored sales and the performance of the sales team, and recorded sales data. I also handled new recruits' requirements and helped them prepare for their exams and interviews. In addition, I created posters, banners, and videos for the team's announcements, awards, and events.

Reservation agent / Social Media Coordinator

April 2019 - August 2020 | Golden Gate Tourism, Dubai, UAE

As a Reservation Agent, I searched for affordable fares and schedules and calculated the total travel cost for clients. I booked travel, hotels, rental cars, and special events such as tours and excursions, and informed clients about their itinerary and required documents such as passports or visas. I also handled social media management and greeted and welcomed guests as soon as they arrived at the office.
